Certificate Issuing Policy & Procedure

Purpose
This document provides a consistent set of principles under which CCC qualifications and statement of attainments are issued.

Policy Statement
CCC is committed to ensuring that all documents are presented in the following:

1. All AQF qualification that CCC is approved to deliver and assess are correctly identified in the documents.
2. That CCC documentation is protected against fraudulent issuance.
3. That CCC documentation is used consistently across the education and training sectors, and the graduates are confident that the qualification they been awarded are part of Australia’s national qualification framework - AQF.

The conferring of certificates is an important stage in the delivery of CCC training programs. As an RTO, CCC will follow all relevant Standards of Continuing Registration (SNR), ASQA, VRQA and AQF guidelines on the issuing of accredited course qualifications.

CCC confers the following types of certificates:
- AQF qualifications or statements of attainment
- Academic Transcripts or interim transcripts

It is the responsibility of the Manager and RTO Manager of CCC to ensure that all certification complies with this policy.

Issuing AQF qualifications
All graduates who have completed a qualification that leads to the award of an AQF qualification are entitled to receive the following certification documentation on award of the qualification:
- A testamur, and
- A record of results (academic transcript)

Issuing Statement of Attainment
Students who complete part of the requirements of an AQF qualification in which they are enrolled are entitled to The issuance of a statement of attainment recognises that students do not always study a whole AQF qualification in which they are enrolled. They may choose to complete only a unit or units of competence from a qualification or part of qualification and receive a statement of attainment and record of results.

Through the use of the statement of attainment, the AQF acknowledges that completion of accredited units contribute to the progression towards achievement of an individual’s lifelong learning goals.

Students who have completed an accredited unit(s) in these circumstances are entitled to receive a statement of attainment. A record of results (interim transcripts) will also be issued.
As per AQF Statements of attainment will only be issued by organisations authorised by legislation to do so. Any issuing organisation issuing statements of attainment for accredited units is required to adhere to any government regulatory and quality assurance arrangements and compliance is monitored by the accrediting authority.

In the vocational education and training sector issuance of a statement of attainment in these circumstances is considered mandatory. Authorisation of organisations to issue statements of attainment must follow the same process as for an AQF qualification.

The statement of attainment must correctly identify the person entitled to receive the statement of attainment, the accredited units by their full title and the date issued.

The statement of attainment must be in a form that ensures it cannot be mistaken for a testamur for a full AQF qualification. It must include the statement ‘A statement of attainment is issued when an individual has completed one or more accredited units’.

If any of the accredited units has been delivered and/or assessed in a language other than English, a statement that this has occurred will be included on the statement of attainment. This does not preclude the use of languages other than English for the delivery and/or assessment of accredited units provided that the level of English language proficiency is appropriate for the intended use of the units.

The CCC is responsible for authentication and verification of a student’s statement of attainment. CCC is also responsible for ensuring that it has in place mechanisms to reduce fraudulent reproduction and use of the statements of attainment it issues.

**Important Notes to the Students**

A Student is entitled to receive a qualification (certificate/testamur) of an enrolled course/qualification only upon successful completion of the requirement of the enrolled qualification. However, if a student decides to drop from an enrolled course in between or completes only a part of enrolled course, they will NOT be issued with any qualification even though the completed portion of the enrolled qualification may constitute the lower AQF level qualification; they will rather be issued with a Statement of attainment.

For example, if a student is enrolled in an Advanced Diploma of Accounting qualification and student holds only one CoE (Confirmation of Enrolment) of Advanced Diploma of Accounting, however student decides to withdraw from the Advanced Diploma of Accounting qualification after one year of Study into the qualification, CCC cannot issue some other qualification for student’s one year study, even though one year of study may have met the requirement of Diploma of Accounting. Student will be issued with Statement of Attainment saying Student was enrolled in Advanced Diploma of Accounting and Student has partially completed the Advanced Diploma of Accounting qualification and it will also lists the unit of competencies student has successfully completed.

However, if a student holds two separate CoEs, for example one of Diploma of Accounting and another for Advanced Diploma of Accounting, then student is entitled for both qualifications up on completing the requirement of each qualification.

As a part of quality indicator data reporting requirement, CCC must report to NCVER how many students were enrolled (based on number of CoE issued) in each qualification per calendar year and how many students have successfully completed the qualification in each calendar year.
